

Accessories

You can add your own signature to your dock with an array of accessories. To add your personal touch and accommodate your personal needs, choose from a wide variety of storage boxes, cleats, benches, ladders, even slides for the kids! EZ Dock has added safety features. Most accessories can be used with existing docks and are engineered for the low-maintenance and durability that you can expect from EZ Dock.

Our team continues to develop new accessories for your EZ Dock system. We understand that you may want to add more trimmings later, so check our website often for the latest in accessories.
